

10.16 Frame Smokehouse # 5695

The following smokehouse was designed in 1965 by the North Dakota State University and the U.S. Dept. of Agriculture. This is a big walk - in smokehouse requiring a foundation reaching below the frost line. This is the depth where water can still be found frozen depending on a particular geographical location.

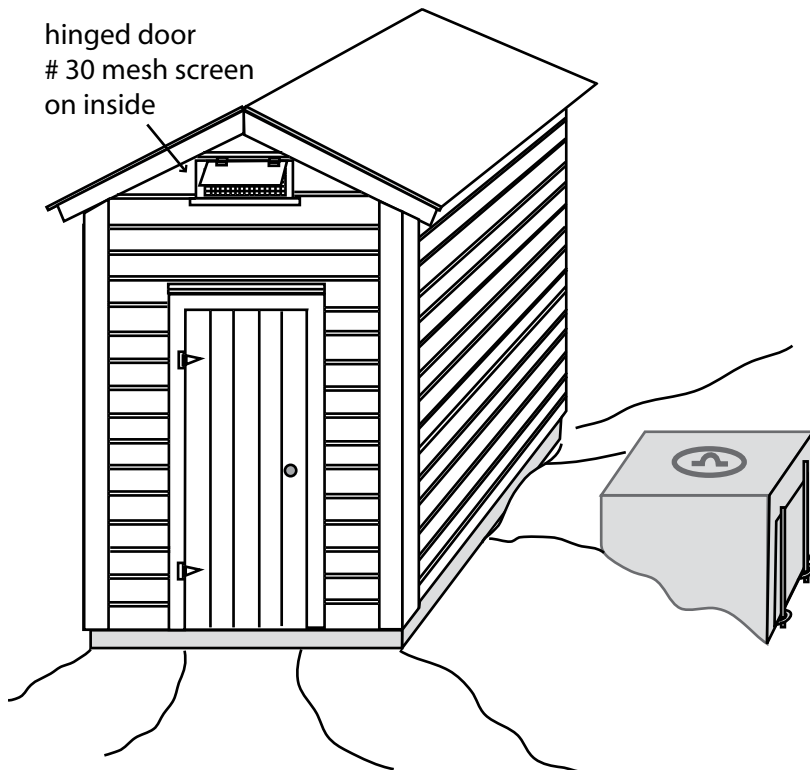

Fig. 10.16.1 General view

Description

This is a classical design of a smokehouse that has been used in Europe and later in the USA for centuries. About 10' high, ventillation on both sides, #
